Wi-Fi Access at Disneyland Paris

Although a holiday to Disneyland Paris is about escaping your daily routine, it's still nice to be able to connect with friends and share your experiences while you're away!

Most portable devices and smart phones come with **Wi-Fi** capability as standard and this is certainly what we'd advise you use while you're away. Mobile data roaming connections such as **3G** are very expensive by comparison for even small updates. Please check 3G charges with your provider before you travel and avoid a nasty phone bill on your return!

Wi-Fi Access in the Disney Parks

Unfortunately there's no wireless access in either of the Disney Parks. If you really need to get online then you'll need to use 3G.

Wi-Fi in Disney Village

- **McDonald's**
Free Wi-Fi available inside the restaurant!
- **Starbucks Coffee**
Paid Wi-Fi available from a French hotspot network
